

**IQUBX
GREEN CERTIFIED**

**MODULAR FURNITURE
&
INTERIOR SYSTEMS**

1

KEY FEATURES AND ADVANTAGES

- IQUBX products are designed with **minimum number of components** for minimum logistics, ease of customization and product evolution. Various models available as per client requirement
- Our products are modular by design to achieve **high level of customization** for end user. Most of the products can be modified locally
- Many components can be used in different products to achieve economy of logistics, ease of maintenance and repair. This also contributes to low carbon footprint, almost nil wastage, with high possibility of recyclability and reusability
- These products are made from 100% recycled aluminium and follow green design principles. They are the only products in their respective categories which have been **certified “GREENPRO by IGBC, CII**. Therefore, they are uniquely positioned for use in the fast growing green building movement.

KEY FEATURES

Design objectives are achieved through innovative strategies which give real advantage to organizations in achieving their sustainable goals

design objectives	product features / design strategies	advantages
<p>Minimum wastage & logistics</p> <p>Lower development cost & fast product evolution to address customer needs</p> <p>Overall lesser impact on environment with ease of recyclability</p> <p>Highly engineered design at micro level to deliver a holistically simple products</p>	<p>Innovative and unique patent designs</p> <p>Modular construction</p> <p>Minimum number of components Floor Junction box (patent pending) has only 3 profiles Ceiling Trap door has just 3 profiles Skirting & Char rail has single profile with the waste section used as mounting cleat on which the skirting profile self- interlocks.</p> <p>Multipurpose use of same Components in different products & multi use of same product system for different functionality Junction Box & Ceiling Trap door – both are having same profile Skirting & Chair rail – are also having same profile CTR, CDR, Server panel & electrical panel – two different products but are having the same profile Glazed partition, modular work station partition & door frame – are also having same profile</p> <p>Avoiding connector parts through innovative standardized joinery like nuts & bolts, screws across product lines</p> <p>Maximum homogeneity of basic material – 100% recycled aluminium</p>	<p>Highly reusable and High Scrap value</p> <p>minimum wastage and logistics</p> <p>long life cycle of product</p> <p>Very low maintenance - Robust, strong, durable and non-corrosive</p> <p>minimum and fast assembly time, ease of disassembly and repair, reduced human labor</p> <p>ergonomic comfort of end users & enhanced functionality</p> <p>Cost effective designs</p> <p>built in flexibility of customization as per client requirements</p> <p>ideal for recyclability of pre-consumer as well post-consumer material – meeting user organization sustainability goals</p>

KEY ADVANTAGES FOR USING IQUBX SYSTEMS

- Saving of Time in construction – very fast installation
- Optimal cost
- Enhanced aesthetics and finishing of the interiors
- Low Maintenance
- Allows very easy access to building systems for maintenance
- Reduce labour component

DEMOUNTABLE PANELING & PARTITION SYSTEM

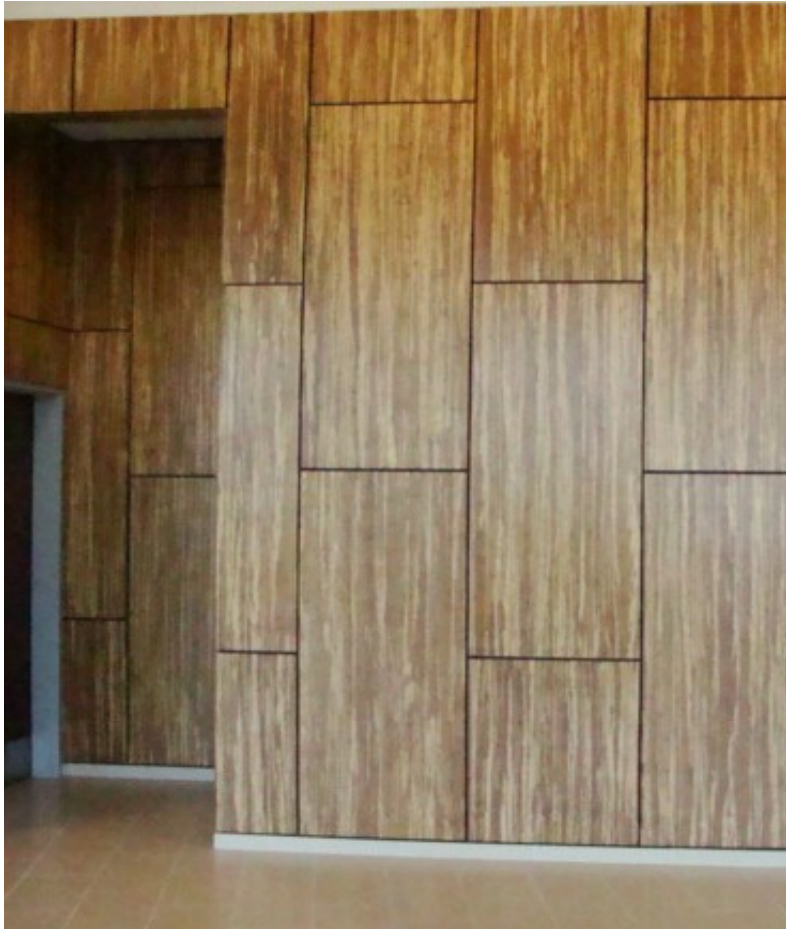

[HTTPS://IQUBX.COM/MODULAR-ALUMINIUM-DEMOUNTABLE-PARTITION-WALL-SYSTEM/](https://iqubx.com/modular-aluminium-demountable-partition-wall-system/)

USE CASE IN BUILDINGS

- Ideal for fast installation of site offices during construction
- Can be shifted easily to next site
- Can be used for site and maintenance office post construction
- Allows flexible spaces for future expansion

IQUBX WP01P DEMOUNTABLE WALL PARTITION SYSTEM

KEY FEATURES AND ADVANTAGES

[Back to index](#)

- The only paneling and partition systems which have been certified GREENPRO by IGBC, CII
- **WP01** is unique modular design with easily removable/ changeable panels for easy maintenance and interior design modification
- Various panel finishes including acoustic board/ cork / pre-laminated board/ lacquered glass or boards with various finishes can be used. Groove from 0-12 mm possible
- **Unique post and rail design does not require cleats or brackets for assembly. Therefore on site installation time is reduced drastically**
- Unique design creates a continuous vertical cavity which allows electrical conduits and plumbing pipes to be laid/ changed without any cutting of the frame and at any point of time during project execution or even post construction. Continuous cavity allows laying of continuous acoustic insulation for superior acoustics
- **The same systems can be used for paneling or can be doubled to create a partition for uniform aesthetics**

**JB023 WITH HINGE,
HANDLE & WIRE MANAGER**

**IQUBX JB023
FLOOR JUNCTION BOX**

JB023 BASIC

WHY?

GI Floor Junction Box are not good enough !

WHY IQUBX Floor Junction Boxes are best for contemporary interiors?

Unobstructed floor finish with high load capacity, doesn't squeak or creak

kota stone insert in JB022 lid

Double lid or infact any design & shape possible as per requirement

Seam less, clean, aesthetic flooring for a contemporary interior

Recyclable Green Building Material Ideal for LEED Projects

OVER HERE

No loose covers means no accidents no tripping

Lid in cavity doesn't come loose, thus, no entry of dust, mites, bugs, rodents which may damage the wires and cause disease

Most economical solution as no wastage and can be self fabricated on site

KEY FEATURES AND ADVANTAGES

- The only Floor Junction Boxes in the country which have been certified GREENPRO by IGBC, CII
- **PATENT** applied design
- IQUBX Modular Floor Junction Box can be fabricated on site or modified to any size and have high load bearing capacity
- **Best advantage is that the lid can take any floor finish, thus giving a seamless floor including stone, tiles, glass, wood, carpet etc**
- They are highly adjustable and can be perfectly aligned with the floor finish
- **IQUBX Junction Box is made of non corrosive aluminium which doesn't rust inside the floor thus protecting the cables**
- The lid cover does not come loose thus no entry of dust, mites, rodents and hence no tripping and accidents
